

# **Digital Storytelling geografico**

**con StoryMap -JS**

**raccontare eventi attraverso mappe interattive e multimediali**

# Cosa è una StoryMap

qualsiasi **vicenda** che presenta le caratteristiche narrative della “**storia**” può essere facilmente rappresentata attraverso una storymap. Le principali caratteristiche che tale contenuto / vicenda deve possedere sono:

- # deve svilupparsi attraverso una serie di **fasi** / **momenti** ben identificabili e

- # collocati **luoghi** diversi dello spazio

- # deve essere possibile attraverso testo, immagini, filmati, etc. corredare e illustrare la vicenda

- # si deve disporre di una applicazione web o software per riportare su una mappa le varie tappe della storia e i contenuti multimediali necessari a raccontarla

Si accede con account google

The image shows the homepage of the StoryMap JS website. At the top is a dark navigation bar with the Knight Lab logo on the left and links for Projects, Class, Device Lab, Posts, Community, and About on the right. The main content area has a light gray background. In the center, the word "StoryMap" is written in a large, bold, black serif font, with a blue "JS" logo to its upper right. Below the title, the tagline "Maps that tell stories." is written in a smaller, orange sans-serif font. A large green button with the text "Make a StoryMap" is centered below the tagline. At the bottom of the main content area, a horizontal row of links includes Overview, Examples, Make a StoryMap, Advanced, and Help. Below this is a map preview section. On the left, a "Map Overview" section shows a map of the Great Lakes region with various cities labeled, including Cedar Rapids, Rockford, Chicago, South Bend, Toledo, Ann Arbor, Detroit, Flint, London, Buffalo, and New York. A "Back To Beginning" link with a left arrow is also present. To the right of the map preview is a larger, more detailed map showing the Great Lakes region with state boundaries and names (Iowa, Illinois, Indiana, Michigan, Ohio, Pennsylvania) and a yellow highlighted area.

# Laboratorio: proviamo insieme a costruire una storia

The image shows a web interface for creating a StoryMap. A modal dialog is open in the center, asking for a title. The background interface includes a sidebar with a menu icon and an 'Add Slide' button. The main area has a 'Media' section with fields for 'URL to your media', 'Credit', and 'Caption'. There is also an 'Upload an Image' button. On the right, there are 'Marker Options' and 'Background Options' buttons. A 'Logout' link is visible in the bottom right of the modal.

Great! Let's make a StoryMap. What do you want to call it?

Il viaggio in Germania

Making a gigapixel storymap? Click 'create' and set the details using 'Map Type' in the ⚙️ options.

# Laboratorio: proviamo insieme a costruire una storia

The screenshot shows a web application interface for creating a story. At the top, there are two tabs: "EDIT" and "PREVIEW". Below the tabs is a world map with labels for continents: North America, South America, Africa, Europe, Asia, and Australia. A text overlay on the map reads: "This is your title slide. The title slide shows all points from your other slides." On the left side, there is a red button with a hamburger menu icon and a button with a plus sign labeled "Add Slide". Below the map, there is a "Media" section with a large gray box labeled "No Media Selected". To the right of this box are input fields for "URL to your media", "or" with an "Upload an Image" button, "Credit", and "Caption". To the right of the media section is a "HEADLINE" section with a large text area and a toolbar with buttons for bold (B), italic (I), code (</>), and link (🔗). At the bottom right, there are two buttons: "Marker Options" and "Background Options".

La geo-localizzazione della storia è scelta da noi

## **Esempio di racconto geo-localizzato: La Grande Guerra**
